Port St. George, May 23, 1925.
(G.O. No. 425, Finance).

No. 111.—The following resolution of the Government of India is republished:—

FINANCE DEPARTMENT

Accounts and Finance—Accounts, Bombay.

Bombay, the 27th March 1925.

No. 111-B.—In view of the very material time in the case of passages, the Government of India sanctioned the introduction, in 1922, of a system for granting advances to Government servants of the non-Audit domestic to enable them to purchase passages for themselves and their families. The advance is notified in the contract in Finance Department Resolution No. 88-A, dated the 28th January 1923. The introduction, however, of the passage pay advance, provided in rule 12 of the Income Tax Act, 1924, as a result of the recommendations of the Lee Commission, necessitates a change in the above scheme. The Government of India accordingly sanction the adoption of the modified scheme set forth in the annexure.

2. The form of the agreement to be furnished by officers coming under the Passage Pay Regulations and receiving an advance under this scheme will be prescribed in due course.

ANNEXURE.

Rules regulating the grant of advances for the passage of certain Government servants of non-Audit domestic and their families.

1. In these rules 'family' means a Government servant's wife, legitimate children and any children residing with and wholly dependent upon him.

2. These rules apply only to sanctioned Government servants of non-Audit domestic holding substantively a permanent post in any of the Civil Departments or in the Military Accounts Departments; and to Military Commissioned Officers (including Military Assistant Surgeons with commissioned rank) of non-Audit domestic in civil employ.

Provided that, in the case of officers who are entitled to *passage pay* under rule 12 of the *Superior Civil Service* (Division of Pay and Pensions) Rules, 1924, an advance will be admissible only when they have exhausted their *household* under the *Passage Pay* Regulations. Advances in these cases, if sanctioned after 31st March 1925, will bear interest of 5 per cent per annum.

2. An advance may be made to a Government servant for the cost of passage by air from a port in India to a port outside India of himself and members of his family and also for the cost of the return voyage. The advance for members of the family will be admissible even though they do not accompany the Government servant on the voyage.

3. The amount of such advance shall not exceed four months' pay of the Government servant or Rs. 4,000, whichever is less, subject to the further condition that it shall not exceed the amount actually required at the time for the purpose for which it is granted. It should be a loan advanced in whole or in part, being a multiple of Rs. 500.

4. When an advance has previously been sanctioned, the amount of a further advance should be so regulated that the total amount outstanding will not exceed the limits mentioned in rule 4. For the purpose of recovery, each advance shall be treated separately.

5. The sanctioning authority will be the Department of the Government of India, or other subordinate authority to whom the power may be delegated with the consent of the Finance Department or the local Government under whose administrative control the Government servant is serving.

6. An advance will not be admissible to a Government servant who does not intend returning to civil duty on the expiry of the leave, and the Government servant shall submit with his application for the advance a certificate that he intends to return to civil duty on the expiry of the leave. The applicant should, at the same time state whether he has taken, or intends applying for, an advance for the same purpose under the rules regulating the General Provident Fund or any other similar provident fund rules.

7. (a) Advances will be recovered in thirty-six equal monthly instalments by compulsory deductions from pay, commencing from the first payment of a full month's pay after the advance is granted. Except as provided in clause (b) of this rule, no recovery will be made from a Government servant who is on leave. A borrower may, however, make arrangements to pay more than thirty-six instalments or may repay two or more instalments at the same time.

(b) If the Government servant retires, or applies for and receives permission to retire on the expiry of his leave, the outstanding balance of the advance will be recoverable, at once, but where his leave is likely to result from compelling reasons in one instalment, a department of the Government of India or the High Commissioner for India may permit a relaxation of this rule to the extent of allowing monthly recoveries to be made from the pension or leave salary admissible to the Government servant at a rate not less than half the monthly amount of such pension or leave salary. In applying this

rule, consideration should be given to the amount which will be handed over to a provident fund subscriber on his retirement.

(c) The borrower will submit to the audit officer concerned or, if the advance is paid in England to the High Commissioner for India, within three weeks of the receipt of the advance, receipts showing the amount of payments made for passages. Where, however, the return for passages has to be mailed from India to England (or vice versa), the time for submission may be extended by two months. In the event of failure to comply with this rule, the amount advanced shall be recoverable at once. If the receipts produced are for an amount less than that advanced, the balance shall be recoverable at once.

8. Subject to the conditions of these rules, the High Commissioner may sanction an advance to a Government servant on leave drawing his leave salary in London for the cost of return passages to India of the Government servant and his family, provided no advance for the same journey has been previously made.

9. A Government servant receiving an advance under these rules will, on receipt of the advance, sign and deposit with Government an undertaking in the form shown in the appendix to these rules and that referred to in paragraph 2 of the covering resolution.

No. 113.—The following resolution of the Government of India is republished:—

CENTRAL BOARD OF REVENUE.

Revenue-124.

Dated, the 12th May 1923.

Refunds of Income-tax—Applications from residents in Indian States—Procedure for dealing with—Central Board of Revenue Resolution No. 4239, dated 1923 November 1924.

R. D. No. 144-LV/25.—The Board understands that the scope of its jurisdiction quoted above has been misunderstood. It may be explained that the procedure provided in that resolution has an exemplary force and has been introduced solely for the convenience of residents in Indian States who may apply for refund of Income-tax under section 14 of the Indian Income-tax Act, 1922. It is, however, restricted to residents in Indian States who are not and have never been assessed to income-tax in British India, or have never been formally declared not to be liable to income-tax in British India. Under rule 39 of the Indian Income-tax Rules, 1922, which is still in force, a resident in an Indian State who, for example, was absent in several companies, with headquarters in different places, has to submit applications for refund of income-tax accompanied by a regular return of his total income from all sources in British India to the Income-tax Officer at each such place, and it was therefore to meet the convenience of such residents in Indian States that this resolution was promulgated. If, however, any particular resident in an Indian State does not propose to take advantage of this convenient procedure, he is at liberty to proceed under rule 39 of the Indian Income-tax Rules and to apply to the Income-tax Officer or Income-tax Officers concerned in British India for the refund of income-tax.

5. In order to avoid the possibility of double refunds of income-tax, being made—once by the Income-tax Officer concerned in the Indian State and a second time by the Income-tax Officer concerned in the Government of India—the Income-tax Officers are requested to instruct their Income-tax Officers that they should at once report to the Principal Officer concerned all cases in which they have considered refunds under rule 39 of the Indian Income-tax Rules to residents in Indian States who are not and have never been assessed to income-tax in British India, or have never been formally declared not to be liable to income-tax in British India.

The survey officer shall be competent, however, to revoke such permission if he should find at any time that delay in the landholder's supply of either survey marks or labour has set back progress of operations.

Rule under clause 2 (g).

1. The total charges advanced under section 8 of the Act for any Government villages or part of a Government village shall be apportioned on the landsurveyed in proportion to the area thereof as ascertained in the manner explained below:—

(1) The area of fields for which the holders have supplied labour and survey marks shall be deducted from the total area dealt with.

(2) An acre of wet land shall (even in the districts towns in Giddard, Khatia, Ghumir and Tarpore districts and in the districts of Malabar and South Kanara where all classes of land are for this purpose treated alike) be considered as equivalent to an acre and a half of dry waste or panchabok. All fields of over 60 ares in extent containing or panchabok or mixed waste shall be charged at one-fourth the average rate adopted for dry land.

(3) The total charges shall be divided by the conventional area in ares in terms of dry resulting from the operations of sub-rule (1)

and (2). The rate of charge per acre of dry waste or panchabok having been thus determined that rate shall be computed at half as much again as the dry rate and that the large blocks of panchabok and mixed waste shall be computed at one-fourth of the dry rate. In the districts and towns excepting in sub-rule 2 the rate per acre shall be the same for dry and for wet. The charges shall be recovered from all registered holders at the rates so computed, Government being treated as the registered holder of unsurveyed land.

2. The determination of the rates at which the charges have to be levied shall begin as soon as the survey of one or more villages has been completed.

First month.—The charges incurred up to the end of the month shall be averaged over the area surveyed so far and the average rate shall be calculated in accordance with the procedure prescribed in rule 1. The demand on the villages the survey of which has been completed shall be arrived at by applying the average rate calculated as above to the area, according to the last returns submitted after entering thereon the fields for which the holders have supplied labour and survey marks. The demand together with a list of the excluded fields shall be sent to the Revenue Department for collection. The remainder of the cost relating to the surveyed area of incomplete villages shall be carried forward for apportionment in the succeeding month.

2. Second month.—The total of the amount left over in the preceding month and of the cost incurred in the month shall be averaged so as to be the first month and the total of the surveyed area left over in the preceding month and of the area surveyed in the month after deducting excluded fields. At the rate so arrived at the demand for the villages the survey of which has been completed shall be worked out and communicated to the Revenue Department as in rule 2, the balance of the surveyed area of incomplete villages and the cost being left over for apportionment in the succeeding month.

The procedure shall be repeated until the survey of the last is completed. The cost of any further survey necessary for supplying labour or for disposing of objections shall be apportioned and recovered in the manner above prescribed.

4. As soon as each demand is received the Tahsildar shall work out the demand separately for each holding and forward the demand notice in duplicate to the village headman for collection.

5. The whole or a specified portion of the cost of survey of an estate or portion of an estate shall on application by the proprietor of the estate be apportioned as may be directed on the following principles by Government or by any officer or authority to whom the power has been delegated by it under section 22 (1) of the Act, among the holders of the lands or the persons interested in the boundaries which have been surveyed:—

(a) The cost per acre shall be calculated in accordance with the instructions laid down in rule 1 above for Government lands.

(b) The apportionment shall be made only in cases where the proprietor admits in writing that his tenants have occupancy rights.

RULES UNDER CHAPTER 2 (A).

In the case of instruments written in a foreign language, the label shall be further secured by means of suitable seals.

(2) On affixing any label or labels under this rule, the proper officer shall, where the duty amounts to more than one anna, write on the face of the label or labels his initials, and where the duty amounts to more than twenty annas, shall also attach his usual signature to the instrument immediately after the label or labels.

DEPARTMENT OF AGRICULTURE.

CULTIVATION STATEMENT FOR 1924-25.

General.—The season in 1924-25 was normal early in the season and in the extreme south of the Presidency. The West Coast suffered from extensive rains and inundation in July and floods in the Coorg and Coimbatore districts and in the Mysore district. Elsewhere the south-west monsoon was weak and ill-distributed at first but good rains were received in September and, on the whole, the season was better than in the previous year.

The north-east monsoon was favourable in the Coorg. It was inadequate in other districts especially in Bellary, Anantapur, North Arcot, Salem, Trichopoly, Coimbatore, Madras, and South Kanara.

Water-supply was generally sufficient except in parts of Anantapur, the Central districts, and the South.

On the whole the year was not favourable.

2. Drylands.—Sowings in 1923-24 were satisfactory in Guntur, Vengal Rao, Dindur, the Deccan, Chittoor, North Arcot, Salem, Madras, and Malabar and restricted in Gudgera, Kaima, Kannad, Timorally, and South Kanara. On the whole, the area sown in the Presidency exceeded the average by four per cent.

Wet lands.—Sowings were satisfactory in Guntur, Vengal Rao, Anantapur, Chittoor, South Arcot, Chittoor, Salem, and Madras. They were restricted in Trichopoly, the South, and South Kanara. On the whole, the area sown in the Presidency was slightly above the average and above last year by five per cent.
